I would like to take this opportunity to welcome you to the pages of the 2019 Fall Harvest Production Sale Catalog.

This is our seventh edition of the Fall Harvest Shorthorn Production Sale. It has been a pleasure to work with sale hosts, Bryan & Marti Warner, Warner Ranch, Riverton, Wyoming and the other consignors. We have learned and grown through the first six sales as we work to offer you a quality, reliable & practical set of Shorthorn & Shorthorn Plus cattle. It is our goal to continue to improve our breeding programs to provide genetics that will work for you, our valued customers.

We realize 2018/2019 have been challenging due to the tough winter weather, record flooding and uncertain markets though the fall, winter, spring & summer in our in our main trade area.

However, The Beef Complex remains very strong with the export market at records levels and strong domestic beef sales point to solid profitability opportunities for all of us as we move into the fourth quarter of 2019 and beyond. A sound investment in quality genetics as we move forward will continue to be the foundation of your ability to pursue profitable beef production.

If I can be of any assistance as you study this information packed sale catalog, please feel free to contact me at any time.

Sincerely,
Alan Sears
Sears Marketing Services

Warner's

A LETTER FROM THE

Dear Shorthorn Friends,

Welcome to the 2019 Fall Harvest Sale! This year's sale will feature a large group of outstanding, well-bred Shorthorn females and heifer calves representing some of the top genetics in the breed. Our fellow consignors and friends are offering the best of their herds. These cattle will display a diversity of genetics and type, but all will be uniform for quality. You will find excellent Shorthorn females throughout this sale. There will be cattle available which will be suitable for a wide variety of programs and landscapes. This year there are two new consignors, which will present an opportunity to invest in some new genetics.

The cattle at Warner Ranch Shorthorns, in Riverton, Wyoming, are managed like a commercial herd. A cow is expected to raise a calf every year and maintain her body condition efficiently. Our program has focused on calving ease and maternal strength. We have selected cattle which possess plenty of natural muscle and are structurally sound, with much consideration given to good feet and legs, and udders which will hold up over a cow's breeding career. Our cattle represent the strong influence of the Canadian Shorthorn bulls we have chosen as our herd sires as well as other outstanding domestic Shorthorn bulls that we have selected to impact our herd. If you are looking for a solution to lower birth weights and moderate frame size, please consider these females.

Here at Warner Ranch we have two new herd sires and are offering for the first time, semen packages for CCS Bold 228C and Muridale Raw Hide 6E as well as semen packages for Muridale Skoll 38Y. Semen will be available at the sale, so be sure to bring your tank. Some of our heifers are bred to Raw Hide, which offers an exciting prospect to see his first offspring in the US. Those heifers that are bred to A.I. sires carry some powerful genetics. Look carefully over this set of females, they have potential to have a positive influence to your own herd.

Thank you for taking time to study our sale catalog. On behalf of all of the consignors, we invite you to join us for lunch and spend the afternoon at our sale location at the Ag Park in Columbus, Nebraska on Sunday, Sept. 29, 2019.

We look forward to seeing you there!
Bryan and Marti Warner and Friends

WARNER RANCH SHORTHORNS, LLC - Riverton, WY

Delight 950 Cow Family- The following 6 bred heifers are from our own Delight cow family. They are either ET daughters or granddaughters of WR JPJ Delight 950. We offer this group with extreme confidence in their productivity and prolific maternal value.

FALL HARVEST

shorthorn production sale

SHA RON FARMS - Clarkson, NE

Welcome to the 2019 Fall Harvest Sale. Our Dad raised Shorthorn cattle his whole life and he always told us that we should only select and sell the type of cattle that we would like to purchase ourselves. We really think this year's consignments meet that standard. Our program consists of 40 reg. Shorthorn cows that are enrolled in the WHR Program. We also select replacements that have good feet and udders with a good disposition, out of our proven cow families.

On behalf of the other consignors, we would like to thank everyone for attending, viewing online and enjoying a September afternoon viewing Shorthorn Cattle in Columbus Nebraska.

Sincerely,

Ron and Sharon Bos, Bill and Thersa Bos

Welcome to the 2019 Fall Harvest Sale from the Cech Family!

This year's sale will feature a group of outstanding, bred Shorthorn heifers and open heifer calves representing some of the top genetics in the breed. Like our co-consignors, the cattle at Cech Family Shorthorns are managed like a commercial beef herd.

We are very interested in our customers success and would like the opportunity to bid on any steer calf produced by any bred female you purchase in the sale. Give Jay a call if he can provide any additional information about our offering or our steer buy-back program.

SHALIMAR RANCH - Harrison, NE

Welcome to the 2019, Fall Harvest Sale! Bill Mack and I have been raising Shorthorn cattle together for over 20 years; and my family as Shalimar for over 100. We strive to produce cattle which will succeed in any environment. Our's must do so in harsh Northwest Nebraska. Our cattle go back to cow families my grandparents developed many years ago, and we have tried to use fresh genetics from around the country and Canada. We hope you appreciate our females for what they are: sound, functional, eye appealing heifers that will make wonderful additions to anyone's cow herd.

Adam, Carrie, Morgan and Skylar Edmund – Bill and Deb Mack

Bred Heifer

A.I. bred on 5/22/2019 to CF S/F Ultimate Reward ET. P.E. from 6/1/2019 thru 8/1/2019 to Free Up Nights.

This roan fox will catch your eye any day of the year. Clean made, moderate framed and from an 11-year-old cow that keeps getting it done during calving season! Longevity will never go out of style!

Possible DSC.

Bred Heifer

A.I. bred on 5/22/2019 to CF S/F Ultimate Reward ET. P.E. from 6/1/2019 thru 8/1/2019 to Free Up Nights.

We should not be offering this female, but we wanted to offer from the top of the bred heifer pen. She easily rises to the top, moderate framed, sound as a cat and one of the easiest keeping females. Husker is a bull we bought from Warner's a few years back and have kept every daughter out of him, every heifer has turned into a phenomenal cow--take this opportunity to build your herd!

Possible PHAC.

These Quanella cows are pure factories! We have yet to be disappointed with their milking ability, breed back turnaround and easy fleshing, not to mention the types of females they raise--elegant fronted, big bellied and sound as a cat. Breeding them to our Proud Jazz son was a home run, don't miss out on this female!

Another Colonel Gus daughter that we should be keeping, we might have lost our minds offering 4 daughters. Zoey is the youngest of our offering but don't let her birth date worry you. She's more than kept up with the March and April females. Her dam is one of Jessica's favorite cows, sound structured, super correct in her lines, great udder and an easy cow to be around all year. I expect Zoey to follow in these footsteps. Phenomenal.

Possible DSC.

WAUKARU FARMS, INC - Rensselaer, IN

Waukaru is excited to be a part of this year's Fall Harvest sale.

The following group of females have been instrumental in expanding our bull market into the commercial beef sector in all parts of North America. They are backed with more information and data that will yield more predictable breeding outcomes than ever before, and as with the entire herd at Waukaru, they are free of TH, DS, and PHA.

 Exposed to KL Prime Time Teddy from 6/10/19 thru 8/10/19. Examined safe, due April 2020.

Waukaru Red Nan 4031 is from one of the oldest cow families at Waukaru and traces to the dam of Waukaru Gold Card 5042. Being sired by the breed's leader for weaning, yearling and ribeye, and from a Marc IV dam enables Red Nan 4031 to post EPDs that land in or above the top 25% of the breed in 11 traits and the top 4% for \$BMI. We have kept three daughters back in production.

A.I. bred to Muridale Thermal Energy 15A on 6/8/19 then exposed to Byland Top Gun 2G8 from 6/10/19 thru 8/10/19. Examined safe to A.I. date.

Waukaru First Lady 4043 is a beautifully designed, well balanced daughter of KL Prime Time Teddy. In the 2018 University of Illinois Sire Test, KL Prime Time Teddy was one of only two sires whose progeny posted ratios of over 100 for all traits measured. First Lady 4043 posts some of the most far-reaching genetic predictors available and she is in the top 1% of CED and CEM while being in the top 3% for both WEPD and YEPD. This enables her to calculate into the top 1% for \$BMI and 2% for \$FEED. First Lady 4043 has yielded two daughters to be retained at Waukaru and a son working for Alexander Cross Ranch of Wyoming.

Bred Cow

A.I. bred to Muridale Thermal Energy 15A on 6/8/19. Exposed to KL Prime Time Teddy from 6/10/19 thru 8/10/19. Examined safe to A.I. date.

Waukaru Red Nan 4169 is a full sister to Waukaru Orion 2047, a senior herd sire here at Waukaru who is being used in Australia and Argentina. Orion 2047 and his son Optimus 4095 consistently ranked at the very top for growth, ribeye area, and dry matter intake at the 2018 U of I Sire Test. Red Nan 4169 has yielded 2 daughters that will remain here; both will enter our donor pool next spring. Red Nan 4169 is a boldly designed, wide sprung female that ranks in the top 1% of the breed for WEPD, YEPD, CW, and REA. It will be difficult to find a female that offers as much power with the balance and eye appeal expected from the proven cow family.

Exposed to South Starr Red Rx S514 from 5/15/19 thru 8/10/19. Examined safe to A.I. date.

Waukaru First Kiss 5025 is a daughter of the homozygous polled, calving ease specialist, Prime Time Teddy. She is one of a very few active females in the breed that are less than 1.0 for BEPD while being over 100 for YEPD. Her two daughters and maternal sister will be relied on heavily. First Kiss 5025 is currently at 159 for \$BMI, ranking above the top 1% of active dams. Her 2018 daughter posted ratios of 110 at weaning, 109 at yearling, and 113 for REA.

Waukaru Red Nan 5188 is sired Gridmaster 1200. Gridmaster 1200 was used here for many years due his unique ability to transmit both marbling and muscle; in fact, Gridmaster has 14 progeny with a combined ratio of 113 for IMF. Red Nan 5188 is in the top 10% for both REA and MB.

Lot 81

TERMS & CONDITIONS

PERFORMANCE DATA: The Expected Progeny Differences (EPD's) represented in this catalog are generated through the American Shorthorn Association Digital Beef program and reflect the latest run as of August 23, 2019.

Terms: Terms of the sale are cash or check (with proper I.D. i.e. valid driver's license) payable to the Sale Clerk. Cattle will not be released from the Sale Facility until payment or satisfactory arrangements for payment has been made and approved by the Sale Manager. The Sale Manager reserves the right to require a certified check as settlement before releasing any cattle. All lots offered sell under the standard terms and conditions endorsed by the American Shorthorn Association.

Purchases and Risk: All animals are at owners' risk prior to sale and become property of the buyer as soon as declared sold by the auctioneer.

Insurance: representatives of Great American Insurance Group will available sale day to assist you with any livestock insurance needs for your purchases.

Bidding: All lots sell to the highest bidder. Any disputes or challenges regarding bids will be settled by the auctioneer. His decision will be final.

Absentee Bidding: If you will not be able to attend the sale, please contact the Sale Manager, Auctioneer or Sale Staff a day in advance to secure your bidder number and place your orders.

Health: All animals will be accompanied by proper health certificates making them eligible for interstate shipment. Prospective buyers should make themselves aware of

health requirements for their respective states.

Breeding: Bred females have been pregnancy examined safe in calf by a licensed veterinarian. Any updated breeding information will be made available on sale day.

Announcements: Announcements from the auction block will take precedence over the printed material in this catalog and other announcements.

Liabilities: All persons who attend this sale do so at their own risk. The Sale Contributors, Sale Manager or Sale Facility assumes no liabilities for any accidents that may occur. The auctioneer or Sale Manager assumes no liability for loss or injury to the livestock due to theft, mysterious disappearance, sickness, improper handling or an act of God.

Registrations: All animals selling are registered with the American Shorthorn Association unless otherwise stated. Registration certificates will be transferred to the new owner. Please be sure to leave complete and accurate transfer instructions with the sale clerk at time of settlement.

Transportation: Transportation for your purchases will be your responsibility. However, the sale hosts & guest consignors will make every effort in assisting you in making transportation arrangements for your purchases.

The American Shorthorn Association (ASA) makes no representation of any kind as to the genetic condition status or parental verification of live animals, pregnancies, embryos, flushes, or semen lots unless catalogued with a DNA case number and/or genetic condition Lab ID number. The ASA maintains a current "genetic condition status list," available under the registrations menu at www.shorthorn.org.
