GENERAL SALE INFORMATION

American Shorthorn Association Genetic Condition Disclaimer: Unless an animal is listed on the American Shorthorn Association "genetic condition status list", the American Shorthorn Association makes no representation of any kind as to whether or not the animal has a genetic condition.

Terms And Conditions: Terms of the sale are cash payable to the clerk following the sale and before the cattle are removed from the premises.

Billed Accounts: All billed accounts are due within 10 days following the date of

Health: Each animal selling will be accompanied with a state approved health certificate from its state of origin. Buyers should make themselves aware of the health requirements for their respective states.

Breeding Guarantee: The Suggested Breeding Guarantee as endorsed by the American Shorthorn Association will be followed:

Registration And Transfer: All animals sell with completed pedigrees or applications for registration in the hands of the sale manager.

Announcements made from the auction block take precedence over all printed

material in this catalog.

Insurance will be available for your purchases at the sale. Contact the clerk at the

time of settlement for your insurance needs. **Liability:** Each animal selling will be at the buyer's risk as soon as sold. Neither the owners, employees, auctioneer, sale consultants, sale manager, Cattlemen's Congress, American Shorthorn Association or other affiliated personnel can be held responsible for any accidents, but will make every effort to provide for the safety

and comfort of those attending.

Mailed Bids: We hope you will be able to attend. If you cannot attend, you may mail or telephone bids to the sale manager or representatives.

100% of proceeds of Lots A-D go to the Shorthorn Youth Development Fund Foundation to support the National Junior Shorthorn Show.

VIP PARKING AT THE 2024 NJSS IN MARYLAND VIP PARKING AT THE 2024 NJSS IN MARYLAND

Donated by the Maryland Shorthorn Association

Save your steps and park in the spot of your choice! We will only offer LIMITED VIP parking. When you arrive at junior national, find someone from the Maryland Shorthorn Association to help you mark your spot! Park close to the barn, close to tieouts, wherever you would prefer!

Dear SYDF Supporter,

Welcome to the pages of both Summit National Sales, OKC and Denver. We sincerely appreciate your interest and support in Shorthorn Genetics and the Shorthorn Youth Development Fund (SYDF). It is simply amazing to me, that in three short years since the inception of the SYDF, the progress made in support of Shorthorn Youth. None of this would be possible without you and the tremendous volunteers of the SYDF Board of Directors. I am honored to serve on this Board with Julie McMahon French, Nancy Grathwohl-Heter, Jerry Nickel, Kevin Wendt and Montie Soules. I would like to send out a big thank you to Shelby Diehm and the entire American Shorthorn Association Staff for all the hard work they put in on behalf of Shorthorns and SYDF.

Please take some to review the SYDF lots selling both in OKC and Denver to work toward continuing our mission to support the Shorthorn Youth of America.

As always, if I can be of assistance please reach out. Sincerely, Jeff K. Aegerter

DISTILLERY TOUR SPONSOR AT THE 2024 SUMMER SYMPOSIUM, PRESENTED BY THE ASA

Donated by the American Shorthorn Association

Join us in the Bluegrass next summer for The Summer Symposium. This two-day educational event will offer learning opportunities across the spectrum of beef cattle production, with topics including genetics, herd management, marketing, emerging technologies, and more. During the event, attendees will have the opportunity to tour the Castle and Key Distillery. As the sponsor of the distillery tour and social, you will have naming rights of the social in all places the schedule is listed or the social is mentioned.

TRANS OVA GENETICS \$500 CERTIFICATE

Donated by Trans Ova Genetics

Trans Ova Genetics presents this donation for 1 certificate for \$500 towards any service provided by Trans Ova*. These services can be performed at any of our regional or satellite centers, as well as our headquarters in Sioux Center, Iowa. Trans Ova Genetics is the industry-leader in advanced reproductive technologies including embryo transfer, in vitro fertilization, sex-sorted semen, as well as genetic preservation and cloning services. Trans Ova Genetics is the industry-leader in advanced reproductive technologies including embryo transfer, in vitro fertilization, sex-sorted semen, as well as genetic preservation and cloning services.

*Excludes recipient and calf products. For more information about Trans Ova Genetics services or locations, please visit www.transova.com or call 1.800.999.3586

RECIP SOLUTIONS PACKAGE

Recip Solutions, Craig Gana: 402-430-2526

- (3) transferred embryos at zero cost with 1 pregnancy guarantee
- Buyer gets pregnancies + recip at zero cost
- Buyer will be notified at 60 day preg check
- No 100 day pregnancy guarantee
- Buyer must pick up between 60-75 days
- Feed Bill at cost of buyer on all 75+ days

Value of package: Transfer \$75/transfer X 3 = \$225 One pregnancy = \$2,900 Total = \$3,125

It's hard to find a way to describe the beginning of this bulls legacy in a short paragraph. Kingspoint was destined to be a King from day one. His mother, a Fantasy Girl, has been a long admired cow family in this breed. At 14 years of age, she has mothered 14 natural calves in a 45 day calving window, the definition of proven stayability and maternal prowess without a computer model predicting it. Five daughters are still in our herd. First glance; he's so powerful and structurally correct with a standout color pattern. Study more; perfect footed, wide at his base, and is still so clean through his lower chest and front 1/3. His list of accomplishments in the show ring is impressive with highly contested nationally represented competition. Reserve National Champion at American Royal, Champion Bull MN State Fair, Reserve Champion Bull IA State Fair. This bull has demanded attention from even the most genetically skeptical individuals. Moderate calving with top 20% growth and performance traits. He truly has the potential to impact a cow herd in many ways depending on your goals around show ring, club calves, ShorthornPlus, blue roans, replacement stock, etc. Brock has had a lot of fun with this bull since he was a calf and intends to show and promote him as a 2 year old for the 2024 show season.

It is unique to find a bull with this much power, foot size, and overall dimension, while still being flawless in his structure. AF VF Citation 306, an own son of Millbrook Tribute FB 6023J and out of AF VF Margie 831 ET, a member of one of the most impactful cow families in the shorthorn breed. He possesses the pedigree, phenotype, and genomic profile to be impactful in the show cattle and commercial sectors of our industry.

Selling full possession and 50% semen interest.

Here is your opportunity to own a full brother to the bull who made his mark on The Hill in Denver just last year: the National Champion GCF JW 101J. Landmark 311L is an eye appealing, structurally correct, white herd sire prospect that should garner plenty of attention when you study his package of quality, genetics, and pedigree. Dam JSF Rodeo Lady 91B is as good of a cow as there is in the herd, and her production record is solidified with the sons she's raising. Landmark has an adjusted weaning weight of 810 lb. and a solid set of growth EPDs. Landmark is a must-see attraction at the Summit Sale.

Selling full possession, retaining in herd semen interest.

If you are wanting to be more competitive exhibiting performance oriented cattle or you want more performance in your show cattle this bull has a unique out cross genetic makeup capable of doing both. His sire, Studer's True Value, is stacked Canadian breeding from the most functional and performance oriented lines. His dams side is the infamous Chelsie cow line that has been so successful in the show ring with recent national champions. Real Value had a 39 cm scrotal circumference at 12 months of age and produced over 500 units of high quality semen at Rocky Mountain Sire Services in 4 jumps. He boasts an adjusted weaning weight of 697 pounds and an adjusted yearling weight of 1193, while still having an actual birth weight of 95 pounds. If you aren't considering him yet, he was Grand Champion bull at the NILE as a calf this fall. He caught the attention of cattle producers in Montana for being so stout featured and checking the boxes for nuts, butt and guts, while being so sound and eye appealing. Don't be left out on this out cross sire and what he offers.

Peak View Ranch retains possession and restricts all semen sales until March of 2026. Semen shares will be sold. Buyer(s) take exclusive semen shares with no other opportunities until 2026.

Here is another recent addition to our donor line up. This is a full sister to the Icon CF Solution and exhibits tremendous bone and presence. This mating to the popular Red Knight is sure to please. Red Knight semen is getting in short supply.

We are excited to get CF CSF MAX ROSA 725 RR into our donor program and have some progeny in 2024 at Sullivan Farms. The Red Reward daughters are some of the best cows and producers in the breed and this one will soon be a house hold name. During the show career for Max Rosa 725 she was the 5th overall female at the 2018 National Jr Heifer Show for Sara Sullivan. Unless you have lived under a rock you have probably noticed the Red Knight progeny year after year after year continues to dominate on the National Level. We have high expectations on what is to come from the new donor and the most dominate sire in the breed.

I think you will find with this offering, one cannot have too much of Mona Lisa Reward 3289 influence in your herd. She is the standard for which all other Shorthorn females should be measured against for fertility and productivity. This is a little different twist on the 3289 cow and Omaha but she continues to prove she can work with each and every bull she is mated to. A full sister and farm favorite to these eggs sold this past fall in our Star Search sale for 32,000.00.

The first embryos to be offered by our 59F Donor & sired by the high selling Gilman's Greens Fork 50K who sold in the Summit sale last year to Shadybrook Shorthorns. It is no secret to anyone that this cow is as highly revered of a female as we have on the farm. Her sons have caught the attention of those that have seen them this fall, they will lead our pen of bulls & highlight our bull sale in February. 59F's daughter's progeny are rising to the top of their respected class as she continues to pass on the genes. Her production ratios show incredible birth to weaning spread and as an added bonus her embryos are sticky.

The breed Great herself. No other cow has had as much influence world wide through her sons as 451. 127X needs no introduction. He is responsible for so many great cattle, too. The maternal grandsire of CF Payweight, the Sire of JSF Next in Line 273D, and, countless others. The mating to Skyfall may prove to be one of the best yet! The power of Skyfall, back to this cow, is very intriguing. The top selling breds from Byland and Crawford the last several years have been Skyfalls!

The Wild Cherri 3269 donor is without a doubt the best daughter of the legendary Cherri 205 and that is saying a mouth full when you consider that long list of success from Cherri 205. SULL Wild Cherri during her show career was the 2014 NJHS and NAILE grand champion female. Wild Cherri had produced an impressive list of sale topper and winners herself the past few years. Her Dream Maker daughter was the 2023 Cattlemen's Congress calf champion and the reserve overall Shorthorn female at the 2023 Jr Show in Fort Worth. That heifer calf sold for an impressive \$47,000 in the 2022 Maternal Legends. She was the result of a past embryo purchase by The Berg Family. In the 2021 Maternal Legends sale 2 more Dream Maker's sold for an average of \$10,000 while 2 more in Meyer Family Shorthorns & Pembrook Cattle Co sold for an average of \$20,000. Another Dream Maker was a many time champion on the national stage for Kyia Hendrickson. Here is your chance to grab hold of some new fresh genetics from the Wild Cherri with the much anticipated sire, MFS DREAM WEAVER 37K that was the \$112,000 2023 Summit sale topper and a son of SULL Dream Maker. Wild Cherri had also produce an impressive lineup of Shorthorn Plus progeny that includes the 2020 NJHS Grand Champion Female for Sara Sullivan.

This mating is very unique due to the fact that it combines the top programs in the Shorthorn breed. CF CSF Demi 6100 has proven herself not only in the show ring, but as a fantastic donor as well. Among her many titles, she won reserve grand champion Shorthorn at NWSS in 2018 and was only beaten by her maternal sister. GCF JW 101J is one of the hottest bulls in the breed right now. His pedigree and added growth add a whole new dimension to this mating. With both sire and dam being champions in the show ring the heifers off this mating should be exceptional. If the bulls are anything like their sire you should be set. Embryos are stored at Trans Ova.

The Nonpareil cow family came to our farm in the 80s, with 456X's great great granddam. There's a reason why this cow family is still around–maternal, low maintenance, and these cows wean the best calves every year that end up being the first ones to finish out. 456X herself boasts a 368 day calving interval while raising a calf the past 12 years and being conventionally flushed three times. Her 2022 bull calf had an adj. 205 day WW of 796 with limited creep feed. This donor dam is a heavy milker with a good udder and teats, and is wide, deep-bodied, easy fleshing-and has an excellent disposition. She's been bred to various bulls and the resulting calves are always impressive, this crossing to Boardwalk will be no exception. Pictured at 13 years old. Guarantee of one 90 day pregnancy if implanted by a certified technician. Embryos are stored at Boviteq.

The Record Setter. What a story. Jeff Stangeland sees the bull in March. Loves him. JSF & DEERHORN secure North American Rights. He goes to the National Sale. Get's moved to the Halter Division. Ends up Reserve. Scans a 7.8 for IMF. 21' REA. Sale happens. Australian records shattered. Finally, with a heavy diplomacy assist from Gary Mckenzie (THANK YOU!!) Slurpie is headed our way. We couldn't be more excited, or, grateful.

I will never forget Jeff's quote when it came to Slurpie, and, in and of itself, probably sums it up best— "He's the best bull I've ever seen and I've seen a lot of them. I'm too damn old to ever have this chance again. Whatever we have to do to get him here, we need to do it!"

Here's your chance to own semen out of the 2021-2022 National Show Bull of the Year, 2021-2022 4 time Grand Champion Shorthorn Bull - Keystone, American Royal, NAILE, and Ft. Worth. His calves are starting to hit the ground here at LSA Shorthorns and are showing real promise. Out of the handful of calves born so far to various sized females, the calves are averaging around 65 pounds at birth. Sired by the popular Boardwalk 530C, his calves are bringing the style and quality that are desired in the show ring.
