LOT 1A ... 3H10 is extremely stout built and beautifully fronted, and really sets herself apart the way she fills out in-between. She is maybe the biggest boned and most rugged built heifer we have raised to date. She is a big time show heifer and top donor prospect, and we think she's ready to go out and compete tomorrow.

LOT 1B ... This one screams show heifer at first glance. She is really hard to put a hole in and really covers all the bases, and we know that's the ingredients for success. Good at the hip, big down the back, and elegant in her front third that all tie together with ease.

LOT 1C ... The third and final impressive full sister in our offering. Maternal siblings have topped every sale they've been in, and we were kicking ourselves for not bringing one last year. We made it a point to not let that happen again. This heifer is square and tall at the hip, which she plants and drives well. She is lacks a little condition compared to her full sisters, but fault free otherwise. She will be on a lot of list come sale day.

LOT 2A ... This female may be one of the younger and greener heifers in our offering, but she brings a lot to the table in terms of look and build. You name it, she's got it: bone, hair, she's square and structurally attractive. With a little patience, this one has as much upside as any of them.

LOT 2B ... Here is the second great build full sister with another one to come. This one has all the right pieces. Great hair, square at the rear, plenty of rib, tied into a sleek, clean neck. She's light on her feet, fluid, and flexible. The transformation of this heifer on clipping day impressed us as much as any, and she will only get better. So far, she seems to be one of the more gentle ones as well.

LOT 2C ... If it's not clear already, we think 4312 is our hottest and most productive donors, and the constancy in the progeny from this Worldwide mating is unmatched. This heifer reads a lot like the full sister before her, but with a few flashy white marks, which we're thankful for, it helps tell them apart. We could flip a coin to pick our favorite and wouldn't be wrong either way.

TERMS

GENETIC DEFECT DISCLAIMER: All lots have been tested for the Standard Genetic Defects and are labeled as such. Updates will be available on sale day.

TERMS: All cattle in this sale sell under the sale terms as written by the American Shorthorn Association. Updates will be available on sale day.

PAYMENT TERMS: Terms of the sale are cash or check made payable to Aegerter Marketing Services, Inc., immediately following the sale and before the cattle are removed from the premises. Purchasers or their representatives must sign the bill of sale prior to leaving the sale.

BILLED ACCOUNTS: All billed accounts are due and expected within 10 days of the sale date. At 10 days, a two percent service charge will be added to the unpaid balance and an additional two percent will be added every 30 days thereafter.

LIABILITY: Each animal will be at the buyer's risk as soon as sold, but will be cared for by the seller of a reasonable amount of time. Neither the owner, employees, auctioneer, sale manager or other affiliated personnel can be responsible of any accidents, but they will make every effort to provide for the safety and comfort of those attending.

BREEDING GUARANTEE: We guarantee all livestock sold as sound breeders. However, if we feel that a heifer has been fed to an extreme level of obesity for the show ring, we hold the feeder responsible for any reproductive problems and no longer feel responsible to guarantee that individual animal. In the rare case that this should occur, the Red Dirt Treasures Group will still try and help you through two breeding seasons.

EMBRYOS: The Red Dirt Treasures group will guarantee one pregnancy on each package of embryos selling if implanted by a certified technician.

FLUSH RIGHTS: The Red Dirt Treasures consignors reserve the right to one flush of eight or more grade 1 or 2 embryos at our expense on all females selling. Flush to take place at the convenience of the buyer at a location of their choice.

SEMEN RIGHTS: Reserve the right to in-herd semen use for all bulls selling.

LOT 5A ... The 902W cow family is a staple on our farm and Lot 5A is a perfect example of why. The show ring pundits have made structure their biggest priority. The structure on all three of these full sisters is impeccable. She's huge bodied and one who reads power. In the right hands this one could have loads of potential.

LOT 5B ... This young 902W daughter comes to us a little skinnier than most but don't let her youth scare you away. A year from now she could hold her own, her look and shape will feed into an exceptional bred heifer.

LOT 5C ... The final 902W daughter to offer and she like her other full sisters reads the same. GFS Creole has been one of the most influential sires in our program. These three full sisters have Creole on both sides of their pedigree and all three read cow power. One that with time will feed tremendously. A favorite and wouldn't be wrong either way.

Selling one package of four IVF SEXED FEMALE Embryos.

LITTLE CEDAR WORLDWIDE 1979 X SULL MARGIE'S TRAVELER

LOT 9A ... These four full sister represent a coming out party for our 2420 donor, and we're kicking ourselves for underutilizing her for so many years. This heifer is green, because unfortunately we lost her recip dam well before weaning. After that, we lost all expectations for her, but lo and behold when it came time to sort sale calves, she made the cut. She is plenty attractive, well balanced, and with time and feed she'll rival her sisters. The calf we're most excited to see the transformation in between now and 45 days at sale time.

LOT 9B ... Like her donor dam, bigger framed with a tall hip, big back, and plenty of bone. She still maintains to be plenty flexible and sound on the move. This one really gives you a broody cow like appearance, but still attractive enough to be competitive and reads as the easy feeding type.

LOT 9C ... This is the daughter that reminds us most of her dam, and think she has big donor potential because of it. The most skeletally extended daughter, with a long sleek front third and big barrel tied together with a smooth shoulder. She caught our attention early in the fall calving pasture.

EPDs	CED	BW	WW	YW	MILK	CEM	STAY

CYT MISSING MIRAGE 2120

Love this heifer for the stoutness that she possesses. Big ribbed with that swoopy belly that everyone loves. When this one hit the ground I could tell she was pretty special and she hasn't missed a beat since. Bid with confidence on this female!

LOT 18A ... Tried and true, these Emily daughters have been some of the best we've offered and this beautifully colored strawberry roan is no different. She ties everything together so well. Great bodied, awesome fronted, good hiped and gets out and flat motors on the move. Not only will this one make a great show heifer, she could be a big time donor and that's hard to put a price tag on.

LOT 18B ... This Emily daughter is a prime example of what has transpired to be a signature mating here at Weeping Fox. Another one that does so many things and has potential to become a highly profitable donor for your outfit. Case in point tag lot 18B is a sale highlight.

LOT 18C ... We've all heard about the young skinny one that wasn't gifted the best recip, lot 18C is a prime example of just that. With how well built she is we weren't willing to panic sell this one and decided to feed her for this sale.

As I'm writing this footnote, I'm questioning my decision to put this young cow in the sale. This female has been extremely fertile, currently raising her third calf before the age of four, and should be bred back for a three-in-one. A red-necked roan that is moderate, fancy, and easy fleshing. This is the type that makes a beef producers job a whole lot easier.

It's been two years since we purchased 5158C in the sale and what an impact she has made in our program. Her high seller daughter from last year's sale won her class at both jr and open show at the North American. We have a set of Red Knight heifer calves on the ground that will blow you away and they will be a highlight in our fall sale. She has been an amazing in our ET program and we are sharing these breed leading genetics.

OWNED BY GREENHORN CATTLE CO.
