Retaining 50% embryo interest after show career.

There is not much more the Mona Lisa Reward cow has left to prove, yet as long as she lives and breathes, she just keeps cranking them out. This amazing December Dream Maker daughter is the next in a long line to be named Lot 1. This female is a tremendous display of blending mass with beauty and grace. She has the body and size to compete with the other older falls this year and the quality and structure to compete with any challenger as a heavy bred next year in Louisville.

These two awesome females are donor cows in the making, but we think they have a lot of trailer rides to take before you get to carried away. Both of these heifers have herd changing muscle mass, performance, and rib. You can see by the pictures they still have all the bells and whistles for the show ring as well. They are proof you really can have it all.

This one was a last minute addition to the sale. We never really thought she would be old enough to be included and we had already talked about selling her in okc. Luckily, she was on an awesome four-year-old recip and like some of these 3289's have the ability to look good at a very young age.

This female was a very impressive individual right from the start. I remember my dad saying "I think you had your best calf of the year last night" when he saw her dried off and nursing the next morning. He has calved about as many Shorthorns as anybody and still knows the good ones. This

one had a pretty impressive showing in the picture pen and left me pretty confident in my dad's intuition on being to tell the special ones early.

Bred to Ronan with sexed heifer semen; due 01.18.2027.

JSF OUTBACK
105N

Every year we try to include exciting lots that give the breed a sneak peek at the next steps we are choosing to take with our herd. The Outback bull is one we are very excited about for our program and the entire breed. He offers an extremely Outcross pedigree and solid numbers across the board including excellent marbling which we have made as a point of emphasis to improve in our herd. Outback also offers the quality and show ring look that we are all searching for to compete and make the next generation. This cow has never failed with any bull yet and this is one of the most thrilling matings on her yet.

GENERAL INFORMATION

Feeding & Showing Terms: We pride ourselves in the professional way we exhibit your purchases. Here, at Cates Farms, we employ some of the best fitters in the business at both the farm and the shows. We spare no expenses to exhibit your cattle to ensure your success. The charges below are not designed for us to make money, rather to insure we can continue to offer the best service to you. Each animal that will be located at Cates Farms show barn will be charged \$25/day. Each animal will be charged \$250/day while attending shows with Cates Farms crew. This will cover all expenses while at shows. All animals must be insured while in our care/possession. Any veterinary expense above routine will be owners obligation. All accounts will be billed monthly.

Breeding Update/Calving Information: There will be added information available at the sale site that will list any additions to the catalog information as to new calves born and new breeding information that will occur after the printing of this catalog.

Half Interest Females: The owner will own 100% of the animal. Cates Farms will get 1/2 of the embryos from each flush. Semen on all of our bulls will be available. Cost will be split.

Breeding Guarantee: All cattle sell under the Standard Breeding Guarantee recommended by the American Shorthorn Association. An exception would be through mishandling either obesity or under nourishment and illegal practices associated with showing the female.

Registration & Transfer: All animals sell with completed pedigrees or applications for registration.

We are having very good luck with the plus on plus matings. The 238 female was shown very successfully by Samantha VanVorhis but had an unfortunate mishap before she even got to reach her full potential. Potential is a great word to describe these two daughters. They are both a little later maturing like their mother but have all the components to be big timers in the end. I used the 7a female as an example one day when Piper and I were working on livestock judging as the ideal structural build one should have. That is saying something.

These three bred females are a great example of how potent this cow family line is. These three females are all built a little different but all bring the same maternal function this cow family is known for. We are very happy with the Heritage cattle. He is the safest and truest calving ease shorthorn bull we have ever used. His offspring are consistently very sound on their feet and legs and have an attractive showing look. We are very proud of the set of breds we are offering this year.

This mating has to be one of the absolute most dominate the breed has seen in terms of show ring success ever. These two females are probably the last of this mating there will ever be as well. We have extremely high hopes for both in terms of backdrop probability and more importantly future generating power. The A heifer reminds us a lot of the 230 female that Paige Wickard showed. The B heifer is maybe as good as we have had out of this mating and a really nice combination of all her very successful sisters.

Retaining 50% embryo interest in both females after show careers.

CF CRYSTAL LUCY 384 ...
Grand Champion Female, NJSS, NAILE and
Cattlemen's Congress, shown by Carter Wickard.

We think this is a big time heifer and has been since very early in her life. The 230 female was very dominate herself in the show arena and in just one calf crop has proven to be just as dominate post show career. We were very happy with our Dreams to Reality calves and believe this one is destined for big things.

Retaining 50% embryo interest after show career

These were probably the two most anticipated pregnancies we had coming this year and they certainly didn't disappoint. Although the In Demand calves in this sale are very young, you can see why the breed is off the charts excited about his first offspring. This mating combines two of the winningest Shorthorn cattle in some time.

lady crystal cow family

Dam 230 not only worked to make great purebreds but she succeeded in producing top notch Pluses as well! No Limit has mated well with Shorthorns to bring home many national show banners. These two have those capabilities.

Bred to JSF Ronan with sexed heifer semen; due 02.08.2027.

Our goal in the upcoming years is trying to produce and offer you a tremendous selection of donor caliber breds. We feel this year has more than ever and feel this one could potentially headline the group. This cow has been very successful for the Meyer family and this female shows why. She is a stout, sound, good looking female that exudes quality and marketability. I would love to see what she would do flushed to Payweight and also think she could generate big time Plus's. I expect for her to be a fan favorite on sale day.

Bred to CF Evolution; due 01.09.2027. Selling 50% embryo interest.

It is hard to say whether being the dam of CF In Demand or Red Bananas' name itself has made her so well-known so quickly in the cattle industry. Her first three natural calves speak for themselves, and lucky for all of us she flushes very well too. Red Banana is a model cow with tons of body and dimension. She has great feet a good udder and is extremely fertile. These two IVF calves in the sale out of her just further make her a can't miss program changer for whoever chooses to become our new partner. This is as much of a sure thing as we can offer to you.

We have been really excited about this female both in terms of her potential to create lasting memories for a young junior and their family. As well as her pedigree and what can be done with her to further a program. We love this female’s functional maternal build and her fluid motion. We feel Cinch is a bull that should be used more in the breed to add maternal traits with some calving ease, without sacrificing growth. They also have proven their ability to excel in the show arena.

@influencelivestockministries
www.influencelivestock.com

lucky charm cow family

Selling full possession and half semen interest.

This is a very intriguing animal that defies the odds on everything he brings to the table. First of all, let's talk about just his physical build. The way Technique is made, he could not only have the ability to make outstanding breeding cattle but he will also get the attention of club calf breeders. CF Technique could be what your looking to use on Perfection daughters to make big time Shorthorn steers. Although he looks like he could make big time steers, his pedigree, testicle size and incredible EPD profile read that he could be just as useful and dominate in other aspects of the industry. Because of this bull's incredible diversity I think he could be marketed in multiple avenues in the industry. We think there a huge semen selling opportunity on Technique.

Bred to Ronan with sexed heifer; due 02.08.2027.

Yes, you read the pedigree correctly. Before we had to put 2106 down, we wanted to try and do something different that could produce great females. The Improver 57th cattle we feel along with CF Trump played a big part in the modernizing of Shorthorn cattle in the 90's and made them so hot. We feel there is a lot of fun to be had coming up with ways to mate this one. We think with her skeletal size she could have a really marketable Ronan heifer calf.

LOT 29E - Selling 2 units of CF In Demand semen.

You would not believe how many times a week I get contacted by people asking if they can purchase In Demand semen. I would say 50 % of the time it is folks outside the breed. In Demand definitely left an impression on the show cattle industry placing in the top five at each major shows Supreme Bull drive. He was able to draw a lot of positive attention to our great breed. His first calves here and around the breed are incredible with a very modest amount born. This time next year I think there will be even more hype surrounding his offspring than even his illustrious show career. This is your first opportunity to purchase this semen.

Offered with Gypsy Creek

LOT 29F - Selling 1 unit of CF In Demand semen.
LOT 29G - Selling 1 unit of CF In Demand semen.
LOT 29H - Selling 1 unit of CF In Demand semen.
LOT 29I - Selling 1 unit of CF In Demand semen.

LOT 30C - Selling 2 units of sexed heifer CF Payweight semen.
LOT 30D - Selling 2 units of sexed heifer CF Payweight semen.
LOT 30E - Selling 2 units of sexed heifer CF Payweight semen.

There is no other Shorthorn bull like Payweight. He is a breed and program changer that is the breed standard for performance and size ranking in the top 1% for WW, YW, TM, and \$BMI. He is top 4 % for CW, REA, \$F and Milk. He sired both the National Champion Female and the National champion bull as well as the Grand Champion Female in the junior show at Cattleman's Congress. This years calf crop by him is his best yet. Those of you that have not used this bull I really recommend you do.

LOT 30F - Selling 2 units of sexed heifer CF Payweight semen.
LOT 30G - Selling 2 units of conventional CF Payweight semen.
LOT 30H - Selling 2 units of conventional CF Payweight semen.
LOT 30I - Selling 2 units of conventional CF Payweight semen.

BEPD	WEPD	YEPD	MEPD	\$BMI	\$CPI													
1.1	52	76	24	126.80	161.90													

Cinch is on fire right now. I get asked frequently if we offer any Cinch semen for sale. He is an outcross sire that has proven the ability to produce National Champions. We will have a lot of Cinch calve next year out of some of our best donors. We unfortunately lost Cinch this spring so future semen sales could be limited.

LOT 31A - Selling 3 units of JSF Kane Cinch semen.
LOT 31B - Selling 3 units of JSF Kane Cinch semen.
LOT 31C - Selling 3 units of JSF Kane Cinch semen.

Selling Open.
Selling 50% embryo interest. SSF and Porter Livestock will each maintain 25%.

It is very rare that a female like this is offered. 5029 is at the height of her donor career and has sold four daughters that have averaged \$80,000 in the past two years and is also the Dam of SSF Sanctuary who has been a very consistent champion this past year. 5029 herself was shown very successfully by Sara Sullivan. This cow is an absolute beast and flushes like a freak, because she produces so many eggs, we are able to offer part of her production. In five IVF flushes she has averaged over 40 freezable eggs. This is a cant' miss investment opportunity.

34A

34B

I have told more people about these two heifers than probably any in the sale, and rightfully so. They both get me excited for what could be in store for them in the year to come. I'm also really excited about the future production of their mother. Buckles was as popular as any Angus female we have ever raised and was Supreme Champion at Cattlemen's Congress for Samantha VanVorhis. These two heifers are a little different from one another but are without a doubt two of the best we have ever raised.

We are so excited about our first All Due Respect calves and it seems like he is catching fire in the Angus breed. The Lady Impression cow just keeps on keeping on, she continues to produce winners out of different bulls and spanning winners over nearly a decade. We were so very proud for Westin and Tinley Haag and his division winner at Junior Nationals that is a full sister. These two offer the same flawless design and beautiful Angus female character.

This is the first Executive Decision out of Lady Impression and again a successful mating. This one has a tremendous look of quality and very bright future.

lady impressions cow family

These two outstanding bred heifers are success story waiting to happen. They are both very well-bred, high-quality females that are both bred to have heifer calves out of one of the breeds best and most consistent sires. If you are looking for a big time show heifer for your son or daughter and don't have the budget to buy a \$20,000 heifer calf this is an opportunity you might want to consider. At the end of the day, you will have two very high-quality, well-bred Angus females.

bred females

These three breeds exemplify the kind of quality we try to produce in our SSF herd. We realize that our market is selling elite show heifers, but also know the importance of the maternal function the Angus cattle offer. We think these three females are a nice combination of both and are all bred to have heifer calves for their new owners.
