# Welcome DURHAM NATION

***SATURDAY, NOVEMBER 7, 2026** | 5:30 PM | AT THE RANCH, KATHRYN, NORTH DAKOTA*

## GREETINGS AND WELCOME TO THE 16TH ANNUAL DURHAM NATION SALE!

What a year of extremes. As I type this, we have actually greened up and have some water standing again. One would never know we had just experienced our driest summer in the last 40 years, prior. Through it all, we adjust, adapt, persevere, and, most importantly, charge on!

The Consignors to this sale understand all of that. Frankly, we have all done those things as stewards of the great breed of cattle we center on...there were many years of adjustment, adaptation, perseverance, and, most importantly, improvement. The result? Interest and demand for Shorthorn Cattle has never been greater! Why? They are adaptable to a variety of environments, possessing improved convenience traits coupled with desirable dispositions. It's why we have now sold in excess of 150 bulls off our property in the past year.

It's why females from this sale will sell all over the lower 48, Canada, & Mexico. It's why our genetics are utilized around the world. Plain and simple, it's about the cows...Shorthorn Cows.

Now the offering. It's 1 of 1. No where else in the world does diversity, quality, and, volume converge to create the largest Shorthorn event of the year. This year's set is truly incredible. The heifer calves, best ever, and it's not even close. The breds...quality abounds on every page, representing the freshest genetics in the breed both in get and service. The depth of the quality in the Bull Division has never been greater, with several Herd Sires worthy of taking up residence at the best Herds in the Nation. Last, but certainly not least, the Genetic Offering this year—EPIC. Never before have we truly unlocked the vault with regard to our frozen genetics along with offering the right to flush several of the greatest Shorthorn Cows in the world.

We hope you can take time from your busy schedules and come see it. I trust you will not be disappointed. The Cows. Herd Bulls. Northland Sires. The Class of Durhams in the Dakotas 2027. All of them, just a few miles South of Kathryn, ND, USA. Next, the auction.

I can't describe the feeling of seeing all the cars in the yard, along the Highway, wherever we can fit them. The barn full. Old friends uniting. New ones meeting, often from all over the globe. People I never expected to show interest in America's First as I look out over the crowd. It is beyond humbling and grown into something I never could've imagined... further proof the American Dream is, in fact, alive and well.

I hope you come see for yourself.

## GENERAL SALE INFORMATION

**Flushing:** All consignors retain a flush on all females selling from their program. The flush will be at our expense and the buyer's convenience with a guarantee of six grade one embryos.

**Mailed Bids:** Mailed or telephoned bids will be handled in a most confidential manner. If you are unable to attend the sale personally, simply contact a representative of the sale far enough in advance prior to sale day. They will be able to assist you at ringside on sale day.

**Terms And Conditions:** Terms of the sale are cash. Settlement is to be made with the clerk immediately following the sale and before cattle are removed from the premises.

**Update On Breeding And Calving Information:** There will be added information available at the sale site that will list any additions to the catalog information as to new calves born and new breeding information that will occur after the printing of this catalog.

**Billed Accounts:** All billed accounts are due within 10 days following the date of the sale. At 10 days, a two percent service charge will be added to the unpaid balance and an additional two percent will be added every 30 days thereafter unless previous arrangements have been made with the owners.

**Liability:** Each animal will be at the buyer's risk as soon as sold, but will be cared for by the sellers for a reasonable amount of time. Neither the owners, employees, auctioneer, sale manager or other affiliated personnel can be responsible for any accidents, but they will make every effort to provide for the safety and comfort of those attending.

**Health:** Each animal will be represented by a state approved health certificate for interstate shipment. Buyers should make themselves aware of the health requirements for their respective states. All cows tested negative for TB, BVD-PI3 and Johne's Disease. Cows vaccinated with Bovi-Shield Gold and wormed. Calves have had Bovi-Shield Gold, Vision-7 and Cydectin.

**Insurance** will be available at the settlement desk upon conclusion of the sale.

**Announcements** made from the auction block take precedence over all printed material in this catalog.

**ALL ANIMALS SELLING WILL BE GENETIC CONDITION FREE UNLESS OTHERWISE NOTED.**

What a set!! I remember the day 33P was born...not too proud to say I didn't even realize we'd had a linebred mating til that morning...given how good she is, should probably do it more often. So much good in her. Astute breeders, she should be your next donor. White Rose 206P brings show and cow power with a unique pedigree twist from a cow that just does it year after year. 345P is a sleek fronted, perfect structured heifer from a great Wall Street daughter that literally never misses.

*Abbey Road is due Mid-March 2027. Flush to take place prior to June 1, 2027. Seller guarantees 6 transferrable embryos with no limit.*

Amazing beast and what I would call an example of another modern day Shorthorn cow. Easy fleshing. Feminine. Maternal. Her 2 full brothers Lennon and McCartney are proving they will in fact be the most consequential calving ease bulls of the modern era. Her direct sons Monroe & Jed are leaving their mark in purebred herds across the nation. Her 2026 edition by Ember, Rock Hound 278P is a Cowboy Bull in the truest form and I intend to use him here.

Brock does have great football and academic scholarships in the 'Ville. Unfortunately, not much NIL money available for Comet Nation. Hence, why his 341P heifer is on the sale. Help the kid out and own a dang good Namath x Palermo! Maude 42N is one of the best breds to sell on this sale, and there is no doubt a sweet roan one in her by Solitaire. 57N's dam is one of my favorite cows on the place and is a maternal sib to a bull that garnered a ton of attention last year, Citation 305N. Bought by a couple of the best cattlemen I know, semen was later sent to the best in the breed-Cates, Greenhorn, Studer, Osterday to name a few. Power in the blood here from a cow family who's roots span 4 decades here.

*Due Early March 2027. Flush to take place on or prior to June 1, 2027. Seller Guarantees 6 Transferrable Embryos.*

Fast becoming one of the most valuable cows in the Shorthorn Breed. Dam of Mantle. I'm told there are a couple sons of hers by Solitaire in Stuart, IA that will be giving us a run for our money next winter. Good for Ethan. Been saying it for years...he's damn smart...and proved it further when he bought those embryos a couple years back. The egg packages alone are some of the most unique and interesting Shorthorn Genetics that have been offered on auction in the last decade. Proof in one of the matings is already here and LEGIT. If you want to make great numbered ones, the 150K's may be as elite profiled as anything in the breed. Outcross Bulls and Future Donors? Grab the Slurpies, or, just make your own. Incredible opportunity on an even better cow.

### LOT 4D 3 IVF EMBRYOS
**Selling one Package of 3 IVF Embryos by SBR Northland 370N**

*Selling One IVF Cycle. She is currently at Bovagen in Britton, SD and in protocol. Her current cycle produced 21 oocytes. IVF Cycle to take place prior to 12-1-26. Seller Guarantees 6 Transferrable Embryos.*

I don't even know where to start. The prototype for the modern-day Shorthorn, she is her. I don't know of any other female that transmits type better than she does, no matter the sire. What's even more impressive, is you see it in her son's progeny...the Kendra Stamp is REAL. We have pregnancies coming next spring same as the matings above. Do you have a power bull with some Birth but you need a cow to keep him in line? Own the Flush and thank me later.

**JSF SOLITAIRE 250L** - *Son of Kendra*
*Durham in the Dakotas 2024 Top Seller to ST Genetics, Mckenzie Ranch, and Kafka Cattle Co.*

**JSF WHITE NOISE 42K** - *Son of Kendra*

We had an awesome litter of Slurpie's last year by Kendra that landed Herd Sires at SharBen in Kentucky and Quaker Hill in VA. On the heifer side, Steel Hill snagged one of these full sisters last fall-buy of the sale btw! Here's one more, cut from the same cloth and safe to best calving ease sire of quality used here since his sire.

**Selling one Package of 3 IVF Embryos by GCF JW 101J**

*Currently open and ready to Flush. Seller Guarantees 6 transferrable Embryos. Flush to take place on or prior to 12-1-26.*

What a cow. Her production speaks for itself and for a female of her age, she's just getting started. Why do I say that? She may have given us her best one yet with this year's natural calf, JSF Vintage 6P. He is entered in Louisville. He will be our Halter Bull for Denver and anchor a pen. He will be used here, heavily.

The Queen herself. Dam of Polaris & Pegasus she continues to show up in the best to bear the prefix. The embyros offered present incredible opportunity. Solitaire x 79B? Yes please. I wish I'd learned sooner the best way to make good ones was to breed cows to cows via their best sons. I can't image many better than 268G & 79B! The Bond's will be full sibs to the lead bull from our Pen of 32 years back, Brosnan, whom we used here and Brock has a white STUD out there by him in 216P. The 150K's bring a unique twist via Rockstar, which, you may remember she worked pretty damn well to him, having landed a sale topper back in 2023. Throw in Adelaide 83B and once again you've mated top tier cows from here, via a son. Take your pick, and go make your next Outcross Herd Sire or Future Donor.

Great lot here with longevity built in, and truly a product of Durham Nation. Helianthus 224Z was selected by the late, GREAT, LeRoy Foss as a bred heifer back in 2013! She's still going strong at coming 15 and bred right back. Not many that can do that. Take note and own a super high quality female from one of the longest standing female lines in the Shorthorn breed.

231P is a maternal half-sib to JSF Mercury 80M, Herd Sire of Mike Schaeffer in SD. Ask Mike about his Mercury's—they are something special! She is as good as any heifer on this sale. 392P is a sweet little roan to get you in a younger class. 290N is yet another lead bred that everyone will find come sale day. Somewhere, I hope ol' Keith Lauer is smiling down seeing these Roses, Nita's, Marigold Maria's, and Melita Rosewood's carry on his legacy. Forever grateful for the opportunity to buy that first set of cows from Keith, now 20 years ago this fall. It turned into semi-load there after, and I'd like to think we've made the breed better because of it.

243P is another of Brock's and one of the best to sell on this sale. We talked about this one many a night as to what to do. He's got his own piece of the rock to pay for now and that's the only reason she's selling. The pair of breds bearing the same name are a pair of right-sized reds bred for the long haul.

The Real World Girls were bred up through the Plus program and are proof of what Shorthorn can do on good Angus cows. Their dam originated at the Housh Ranch in Western NE. With a little luck and some time, we got to the Reincarnation daughter 46H. She is an incredible beast. Be paying attention on these ladies. You will thank me later.

One of the most time-tested cow families in the breed. Studer's will have just finished when this thing goes to print. Don't forget Forsaken is out of Golden Chain cow, and I'd say there's good odds he will have just sired their high seller! We are happy to continue to carry the torch for this cow family from Rocker Bros in NE. They were responsible for some of the best cattle in the breed 3 decades ago and remain so, today.

Another cow family that has stood for the ages. The Beatrice cows have done it for years for Dale Springman and later Deerhorn Farms. We are so fortunate to have a handful of the Deerhorn cows here as Brock's start and each of these hail from that cow family. Cows. Cows. Cows...It's about the cows.

Then comes 364P, a maternal Half-Sib to last year's high-selling bred, this gal is LEGIT. OSC worked like a dream on Dau's Ripper daughter, giving us another stellar one of those in 358P. 354P stems from a sweet Plus of Preston's that Kay picked up last year. Speaking of Preston, last but certainly not least is a cool made ¾ blood with great utility. Take your pick!

These Old School Cool calves are causing quite a stir at JSF, and we really like this one. A maternal sister to this heifer sold to the Golemboski family a couple years ago at Durham Nation. She is the kind to catch your attention as a calf and keep your attention as she matures into a nice cow.

CONSIGNED BY: **GREG CRAWFORD FAMILY**

LOT 33

The JSF Skyfall 135E are some of our top performing calves each year, and 614P is no exception. She had the heaviest weaning weight of our heifers this spring. Her mother is old enough to drive, calving this year as a 17-year-old! If you want a heifer who has longevity built into her pedigree, here is an excellent choice.

| $CPI | 138.05 |

The North of 49 cattle are certainly eye catching when you study their look and build. We haven't brought much to Kathryn from this family, as the last two sisters have been kept back in the herd. Our Curly cow family is one of our most prominent. She's a neat combination of genetics and phenotype.

## LOT 39 GCF LAVENDER 516N

The Adelaide cow family needs little introduction as JSF has been making killer Adelaide females for a long time. We purchased an embryo package of JSF Adelaide 83B and Reincarnation from Derek, and we were fortunate to get these two beautiful roan heifers. I can't tell you which one I would pick as it seems to change day to day.

CONSIGNED BY: **PEARL VALLEY SHORTHORNS**

LOT 43B

Yep Kendra. We don't sell one very often so take note as she is a special female. She goes back to the dam of you guessed it, donor dam Kendra 268G at JSF. We are extremely impressed with what JSF Journey 201M is doing for us. He is adding performance, style, and super eye appeal. There will likely be a few of this heifer's brothers in Kathryn in January 2027.

LOT 43C

The Gold Rose and JSF Mantle mating is a HOME RUN! This beautiful roan heifer has taken to weaning extremely well. She is outpacing the other three pen heifers and likely will end up as the alternate. You will still see her in Denver as she is too dang good not to make the trip to "Mile High".

***Examined Safe. Due March 4, 2027 to Byland Full Moon 5EC2.***

It's with great pride we start our offering with SBR Dolly 548N, we are always striving for perfection and Rick says, "She's as close as I've come in my 48 years of breeding cattle." We'll let you analyze her picture and video and decide for yourself, but we do know if you keep bidding on sale day you'll go home with a smile on your face and own a great heifer. As a bonus she will have the first Byland Full Moon calf born anywhere.

***Examined Safe. Due April 5, 2027 to Beckler Check Mate 16M.***

When cattle are this good, it wouldn't matter if they were green in color! It took us a while and a bull like Mantle to buy into the white bull trend, happy to say we're sure liking the result. Your chances of a beautiful roan calf increase mated to Check Mate so latch on to this white one and enjoy the results in your herd. Top 25% for 15 traits

CONSIGNED BY: **STANGL SHORTHORNS**

LOT 57

***Examined Safe. Due March 5, 2027 to Byland Full Moon 5EC2.***

Her dam was a past show heifer, and Byland Cash added the power to make an incredible female that excels in growth and style. If she has a heifer calf by Full Moon, we think it would do well in the EDGE shows. Top 2% YW, 4% WW and 25% for 7 traits.

LOT 58

***Examined Safe. Due March 16, 2027 to Byland Full Moon 5EC2.*** A very impressive, larger framed Cash daughter with an impressive set of EPDs. She has the style and performance to raise some great ones...hard to let this one go. Ranks in top 25% of the breed for 11 traits.

There's pages of breds...and there are pages of breds...I might be as proud of the 2 on this page as any we've had. Just awesome, functional, Shorthorn females, from the cow family that started with a weekend trip to Washington State 26 years ago this past May. One thing I learned on that trip...trust your instincts. I'll never forget the legendary Cattlemen Bill McLean trying to talk me out of taking Adelaide 68K...he didn't think she was gonna get big enough. I listened to Bill a lot over the years, sure glad I didn't that day. There was no doubt in my mind she was the one I was coming back from Coulee City with. Her influence here is literally legendary. 31 head of direct progeny registered with ASA. Her most notable daughter, Adelaide 83B has 21 so far...with double digit pregnancies coming by her in 2027 and is the dam of some pretty amazing individuals. You get the point...I'll stop there. May the best Cattlemen win on Nov. 7th.

Elite Ranchers Reds here. We wanted to offer a few of the females so people could actually see them. 191N blew Logan Hoffmann away in the picture pen. She will on sale day, too. Everything we do, we create, and the Ranchers Reds are no exception. These are great cattle. The Kaisers are exceptional females. Their brothers are finding their way into the BEST commercial operations in the state. As I've said for years, sometimes, you gotta show people...folks...this is what a combination of Shorthorn x Simmental x Red Angus looks like and they are FOR REAL.

# PLC LADY IN ROAN flush

*All proceeds will go to MSU Comet Football Quarterback, Matt Donovan*

Saturday, September 19th is no doubt a day the Mayville State University Comet Football Team family will never forget. The Good-one of the greatest comebacks in MSU Comet Football History. The Bad-a great young man left fighting for his life. I watched our starting Quarterback Matt Donovan get up and walk-off the field post a bit of an awkward hit, but, not alarming by any means. The minutes that followed however, full of alarm. Ambulance and later a life-flight, Matt was literally in for the fight of his life. What was a great win was tempered by a great deal of uncertainty regarding one of our own. Most that follow Brock or I on Social Media are at least aware of this. #PlayFor3 has become part of every tagline and post since that day.

When it came time to consider how we could help, I was thinking of ways to meld what we do at JSF with something that was Brock's...and had an idea...work in a donation flush Lot on our newest donor female, PLC Lady in Roan. Before he made that last bull delivery run West last June, I told him -"When you get to Zane's, see what the Horned Jaxson daughter has for a calf at side...and if you're a better negotiator than me, maybe you can bring her home..." with a wink. Shortly after he started the tour at Zane Martin's Promise Land Cattle Ranch, just outside Fishtail, MT, I received the following text: I'm not coming back from Montana without that cow.

If you know my son, he may be almost as determined as his Dad!

A maternal half sib to Old School Cool, that old cow was burned in my brain after years of visits there. So powerful, yet feminine. Always had one of the top calves at side. Now coming 10 and didn't look a day over 6. After some heavy negotiation and a little help from Dad, that pair was coming back to Kathryn...and all I'll say is I've never spent more on a cow, ever. But I believed in her and what she offers the breed. Much like a lot of cattle with the PLC prefix, the breed needs them.

She's due approx. April 1, 2027 to JSF 150K. Around June 1, she will be ready to flush and we couldn't be more excited. It's not every day you have the ability to be in on the ground floor of a proven cow, and, do so for a great cause. We'll guarantee 6 transferable embryos and offer semen on any of the bulls in our battery, including the upcoming studs selling in 2027, as well as the Shorthorn World Record Setter himself, JSF Outback 105N. 100% of the proceeds from this lot will go to Matt's recovery fund. Let's make it bring a pile! **#PlayFor3.**

# REINCARNATION *semen* & CASH *semen*

*All proceeds will go to Brandon "Bubba Sedler" Benefit*

We played on every sports team together growing up. Showed cattle against each other in 4-H. Did every summer Basketball Camp. We re-connected approx. a decade ago through the often-intertwined worlds of Seedstock and Rodeo. Since, we snapped each other almost daily. Often times, from the road. Denver, Madison, Bozeman, and anywhere along I-94 or I-29. Various sale barns we learned were good layover spots when hauling, some shared good humor, you name it. I couldn't count the number of times I opened my phone to a message from him "Just met a JSF Trailer—that you or one of the crew?" Whenever we sent big groups to the West Coast, Bubba got the call. There's no one else I'd rather have taking high value bulls and cows over the Mountain than Brandon Sedler. Every time he pulled out of the yard in a Bailey Pro Rodeo Semi & Bullrack, I'd say I was lucky to have famous friends. He's come a helluva long ways since June 1. Just saw last night he's now cleared to get behind the wheel of a Big Rig again. Truly incredible! Fargo ICU, Craig, CO, Omaha, NE he and Paula have endured and persevered. I hope they can be in Kathryn the evening of November 7th!

So...what do you do for a Donation Lot to a guy known in the Rodeo World as the "Bull Man?"

I'm going with donating semen on 2 of the most impactful Bulls to ever walk here-

Jake's Reincarnation 228Y and Byland Cash 1R086. There are less than 165 units remaining in existence on either of these bulls. In the last 2 years of our bull sales, Reincarnation has both sired the high seller, and, had a daughter raise one, who happens to be the World Record Selling Shorthorn Bull. How many bulls, of any breed, can claim that? I doubt any. When it comes to Cash, I haven't ran a calculation recently but I'm almost certain his sons have averaged in excess of $13,500 through our barn over the last 3 years, with one more set of direct sons to sell in January 2027.

**This will be the Last Semen Offered on Auction for Either of These Bulls EVER.**

A LEGEND IN THE MAKING.

# PLC OLD SCHOOL COOL 2216

All the great ones have a story...the one behind this dude may be one of the best yet. I found him on a trip to MT 4 years ago this past August. He was the most different Shorthorn bull calf I'd seen in years, if not ever. Massive upper rib shape. Big Foot. Cat Sound. Eye appeal. Next came what he was...different pedigree, too. His sire, born in 2000, I remembered as likely ahead of his time. His Maternal Granddam was responsible for some of the best cows I saw that day. I was bound and determined he was coming to Kathyrn. It took 2 more summer visits to Fishtail to make it happen. Each time, he looked GREAT. Each time, I left thinking the breed needed a chance to see and use him. Last spring, we had the privilege of turning him out with some of the best cows at JSF. This spring, they gave us some of our best calves...and they haven't taken their foot off the gas since. Others that have tried him, report the same. His daughters lead the heifer calf offering. His name stems from that first day I saw him, asked what he was, and quipped..."Whoa...that's Old School Cool!"

## PLC OLD SCHOOL COOL 2216

***4352434 | B | 3/24/2022 | HORNED | 2216**

**128A -** 2 Units Sexed Heifer Semen
