What a truly great Shorthorn cow! Remember, Mirages are Roses. So she has one of the greatest cow famlies of the breed on her top and bottom sides. The Payweights have hit the show ring hard and this mating should as well. FSF Diamond combines width and depth with a great head, neck, and rear leg. Imagine his eye appeal and the flash of "chrome" he's sure to infuse into this mating.

Proven genetics are important. Mona Lisa 782 "Liz" easily our #1 donor at the moment. She has continued to generate for us and no matter which way we go with her, she never fails. This year, a Long Look daughter has been and continues to be successfully campaigned by Abby Scruggs, winning divisions at Lousiville, Cattlemen's Congress, Junior Nationals, and being named Grand Champion Shorthorn Female at the Kentucky State Fair. Unless you're living under a rock, you will know the success that In Demand has had for Cates Farms. Paired with the Mona Lisa cow family, these calves are sure to be no slouch. We have just as high hopes for the Dream Weaver mating.

The first time In Demand and our Omaha Mona Lisa female were together at a show, Tyler Cates told us, "Those two are going to make some great babies – you need to flush her to him." That is exactly what we did on her very first flush, and we could not be more excited about this mating. Omaha Mona Lisa 410 is a full sister to Knox Neumeier's 2025 Heifer of the Year and Junior National Champion. She also won at Keystone and several jackpot shows, and she is proving to be every bit as good on the production side as she was in the show ring. She flushes well, milks well, and her first calf is already on the ground, doing well, and is being offered in this same auction. In Demand needs very little introduction. He has already sired Cates' high seller, and the early reports on his first calf crop have been extremely positive. We are excited enough about this mating that we will be putting several of these embryos in ourselves. This is an opportunity to get in early on a mating we believe has a tremendous amount of upside. *Embryo's made at Genetic Visions Veterinary in Newville PA. Embryo Terms: Grade 1 embryos. Pickup or shipping from Transova, Maryland. Guaranteed one embryo. Guaranteed one 90-day pregnancy if implanted by a certified embryologist within one year of the auction date.*

Donor was 5th Overall at Junior Nationals in Iowa, but as good as she was in the show ring, I may like her even more as a cow. She has really turned it on in production and is probably my favorite Mona Lisa female in our pasture today. Red Knight needs no introduction, This mating produced one of the best Heifers we have ever had born in Gettysburg and I am sure the high bidder will be very please with what this opportunity has to offer. *Embryo's made at Genetic Visions Veterinary in Newville PA. A mating that we have extremely high expectations for the infamous Chelsie cow family has found an incredible amount of success in both the show ring and in the donor pen. Chelsie 401 was successfully campaigned by Carter Wickard, claimimg the title of Shorthorn Show Heifer of the Year Runner Up. She has various wins under her belt, including Grand Champion Shorthorn Female at NAILE, American Royal, and Reserve Champion at Cattlemen's Congress. Along with that, Dream Weaver has had an impressive couple of years in the showring, with many daughters finding their way to the backdrop. You will regret not getting in on this mating.
